DC 1.5V Mini Portable AM/FM 2 Band Pocket Radio Receiver With Earphone

ADVANTAGES

AM & FM Reception and can be tuned into available AM/FM stations (such as TT Radio, 3FM & Energy, plus your local and BBC Stations etc)

Handy Clip for fixing to your Jacket/Shirt Pocket etc.

Option to wear the Earphones under a helmet (while sitting in the cold waiting for the next "delay" to be announced !!!)

The AAA batteries are readily available from many retail outlets and filling stations, rather than the button type batteries used in other available radio types.

The battery can be changed very quickly and easily with no fiddling about.
